

PROJECT SCOPE STATEMENT	
Project Name	Cook of the Wild
Project Deliverables	Detailed Description
Recipe List Screen	A screen that displays a comprehensive list of all the recipes in the game. Users should be able to filter the list using a variety of parameters including food type. This list will be categorized for ease of browsing.
Recipe Detail Screen	A screen that shows the name, ingredients, buff type, and any other relevant information about a recipe.
Favourite Recipes Page	A screen that displays all the recipes that users have favourited.
Login/Sign-Up Functionality	Users can choose to make an account with the website so that they can view their favourite recipes. Users can still browse the Recipe List Screen if they choose not to make an account.
Project Exclusions	
We will not have connectivity with the game since we are not making modifications to the actual game files.	
Users will not be able to view a history of all the dishes they have made in the game.
