| PROJECT ROLES AND RESPONSIBILITIES		
Project Name	Cook of the Wild	
Name	**Role**	**Responsibilities**
Mikayla Peterson	Project Manager/Scrum Master	Responsible for tracking project progress, assigning tasks, and motivating the rest of the team. Also leads weekly scrum meetings.
Sebastian Lopez Melendrez	UI/UX Designer/Front-End Developer	Responsible for ensuring ease of use and accessibility for all user experiences. Also responsible for the overall visual design for the UI and for implementing the front-end.
Kristina Langgard	Chief Tester/Back-End Developer	Responsible for back-end design decisions and implementations for the database and all server-side logic. Also ensures that project deliverables meet QA standards and all required tests pass.

Project Overview

Why?

- Support gameplay
- Provide resources
- Fill a need
- Have fun!

Lo-Fi Prototypes

Hi-Fi Prototypes

Project Feedback by Team Riker

- Documents in our vlogs
- Development of our prototypes
- Clear representation of ideas
- User vs guest experience
- Emphasis on the why

A Quick Look at our GitHub

Project Demo

Overall Team Reflections

- Proud of the effort we put in to our project
- Gained good development experience in all areas
- Able to reinforce skills we've already learned and gained new skills
- Discovered new facets of ourselves
- Would like more help with things such as crafting good user questionnaires

Q & A and Comments
